

Beyond the Fear of Aspiration: Modern Treatment of Dysphagia

John C. Rosenbek, Ph.D.

Jay Rosenbek, PhD, is a Professor in the Department of Speech, Language and Hearing Sciences, University of Florida. He teaches in the Rehabilitation Science PhD program and in the master's program for training clinical speech-language pathologists. He is a Fellow of the American Speech Language and Hearing Association and holds the Honors of the association as well as the Kleffner Career Clinic award. He also received the Honors of the Academy of Neurologic Communication Disorders and Sciences. His research involves the treatment of dysarthria and disorders of expressive prosody. He maintains a busy outpatient clinical practice. He has completed 41 years of practice and is dedicated to continuing till it is not fun anymore or until he gets it right.

November 3, 2011

9:00 am – 4:00 pm

Best Western Chocolate Lake Hotel, 20 St. Margaret's Bay Road, Halifax, NS

Learning Objectives

Attendees will be able to:

1. List all the decisions necessary to create a behavioral treatment program for dysphagic adults.
2. Describe the most recent treatments for dysphagia including EMST
3. Create risk/benefit ratios for non-oral nutrition options such as NGs
4. Defend eating and drinking choices for those who aspirate
